Side-by-Side

on the road to health

This book is for you and your child's health worker. It gives you advice on how to raise a happy, healthy child. It is also a record of your child's growth and development, and is used by health workers to make sure that every child gets the care that they need at the right time.

For your child to grow and develop best he/she needs:

- 1 Good nutrition
- 2 Lots of love, playing and talking
- 3 Protection from disease and injury
- 4 Health care when they are sick or injured
- 5 Extra care and support if and when they need it

Read this book from cover to cover to learn how you can help your child grow and develop. Please keep this book in a safe place and take it with you every time that your child visits a clinic, hospital, doctor or other health facility.

Although information from this book may be requested by your child's preschool or school, it should always be kept in your care.

Ask the health worker about your child's health, growth and development at every visit. Speak to your health worker about any concerns.

Contents

Nutrition

Love

Protection

Health care

Extra care

These are words you may find difficult to understand. The meanings of these words are explained at the back of the book.
